I'm more of a traditionalist when it comes to dollhouses, but those kitchen units are so chic!

Birch plywood, stainless steel, transparent varnish, wheels... I wouldn't mind to play with this and the other fabulous, modern dollhouses made by [Liliane](#).

How I wish I had tagged my posts when I started to blog. Anyway if you want to see some of my earlier dollhouse posts, search "dollhouse" in the search box top left.
