## **USA: YOUR HEART WILL EXPLODE**

American consumers, especially working mommies, can now finally buy a Dolls Villa at home.

The new USA online-shop Moon Picnic – design shop for creative kids: "We'd be very happy to be a stockist in the US and promote it through our blogs and social media. We love the Dolls Villa! I think many US customers feel a lot more comfortable with domestic shipping. We look forward to introducing your amazing dollhouse to our audience."

Moon Picnic: "If you're like us, as soon as you see this your heart will explode with a child's excitement, however old you are. Yes, we've finally found our favorite thing in the toy store (which of course happens to be the most expensive in there) and our parents won't get away easily this time as we hold on to the frame and won't let go!"

"You can easily imagine how thrilled we are and we can't wait to tell you all about it!"

"This Dolls Villa was designed for large dolls and stuffed animals (children's children!) and 4-5 children can play together with enough room for everyone. In their own safe domain filled with all the features of modern living and stylish furniture just like their parents, they learn about pleasure, attachment and trust. This is a gift for the whole family and future generations too."

"Browse the slideshow of impressive details and furniture and read more about the philosophy behind this in the words of the designer Liliane Limpens on our product page."
